

BACKGROUND MUSIC ON YOUR AMI JUKEBOX

With AMI's background music service for your jukebox, you can keep the music going between patron selections. While the background music plays, your AMI jukebox will continue to do its job by attracting patrons and prompting them to play their favorite songs. It's the perfect balance between continual music and encouraging patrons to use your jukebox – all from a single device!

WHAT YOU GET WITH AMI JUKEBOX BACKGROUND MUSIC:

- 30+ Curated music stations to choose from, plus seasonal & holiday stations
- Convenient tools to fully customize what station plays during scheduled times
- Tools to schedule breaks between songs
- Background music that plays while letting patrons make juke selections
- Fully licensed background music for commercial use

SINGLE DEVICE MUSIC MANAGEMENT

You won't need to deal with other equipment or worry about switching between background music and making the jukebox available. You just need to schedule your stations and let your AMI jukebox do the rest.

Curated Background Music Stations for You to Set the Right Mood

Our passionate music team works hard to provide great background music stations for AMI jukeboxes. We pay special attention to building out the background music stations with the right songs to set the right mood.

HERE'S HOW IT WORKS:

- The AMI Team of Curators Hand-Pick the Songs in Each Station
- Stations are customized to be in Sync with the Station Title
- Our Team Checks Each Song Lyric for Age Appropriate Ratings
- Your Artist & Song Lockouts on Your Jukebox Apply to Background Music

Robust Song Catalog for Your Background Music

There are thousands of songs available in the AMI jukebox background music catalog. When you schedule a background music station to play at a certain time, the full station downloads to your jukebox. The catalog is updated regularly to ensure your background music is fresh and current.

Changing Background Music Stations

You can change your background music station using the online dashboard tool by using AMI's free Co-Pilot mobile app.

Scheduling Your Stations

You can customize what background music station plays on what day and at what times. You can customize the schedule however you want to create the right mix for your venue. Ask your operator about scheduling background music stations.

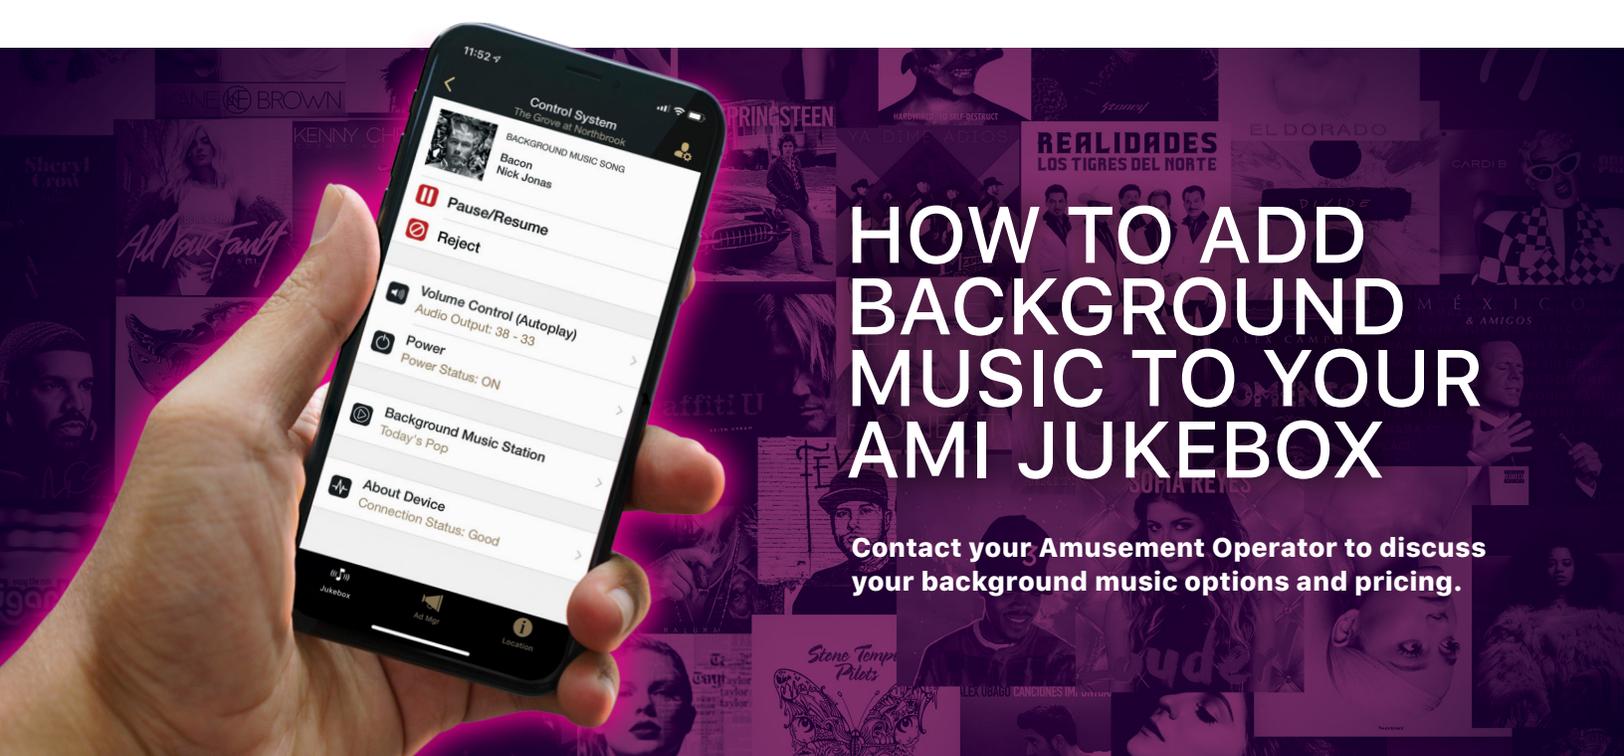

Rejecting Songs

Just like with paid play on your jukebox, you retain the right to reject songs that play. You can use your jukebox remote or Co-Pilot app to reject a song.

*Stations are as of August 31, 2022

HOW TO ADD BACKGROUND MUSIC TO YOUR AMI JUKEBOX

Contact your Amusement Operator to discuss your background music options and pricing.

FAQs

Can I Change Stations at Any Time or Do I Need to Stick to the Schedule?

The schedule can be changed at any time using the operator website or the AMI Co-Pilot app. You can also temporarily override a station using the Co-Pilot app.

What Happens if a Song Comes on I Don't Want to Hear?

You can reject songs using your jukebox remote or Co-Pilot app.

How Do I Let My Patrons Make Jukebox Selections?

The jukebox is always ready for the next patron selection. When a selection is made, it immediately stops the background music to play their selection. Jukebox selections will always take priority over the background music.

Do I Need to Install or Maintain Additional Equipment?

No, your background music plays right through the jukebox. Once your jukebox is enabled for background music and your stations are scheduled, you don't need to do anything further.

Is the Music Licensed?

Yes, all of our music is fully licensed for commercial use.

Can I pause the Background Music During Live Events at My Venue?

Yes, you can use the Special Event Switch to keep the background music on hold during your event, or use Event Mode via the Co-Pilot app.

Can I Control Who Has Access to Changing the Background Music Channel?

Your operator can add additional Location Managers. Once you have Location Manager access, you can also add users with the "Manage Other Users" permission.

Anything Else I Should Know?

Yes. If your staff is in the habit of connecting their devices to the sound system to play their own downloaded music or a streaming service, they should be instructed not to do that. Music from their personal devices most likely is not licensed for public performance and you could get fined. In addition, when patrons play music it won't come through and your patrons will leave dissatisfied. "I didn't hear my song" is the most common complaint we receive at AMI.

Visit AMI's  YouTube Channel for guided BGM tutorials.
